## PROFILE

- More than 12 years' experience in Commercial Diving Operations.
- In my late teens I went down a different path than I had planned once I realized I could make my hobby a career
- Experienced in working closely as part of a team, making quick decisions.
- Diligent and reliable
- Proficient in sticking to strict time limits and following plans set out by supervisors.
- I show initiative, am highly motivated, thrive on fresh challenges and enjoy learning new skills.
- Enthusiastic, trustworthy, and conscientious.
- I strive to deliver excellent results working alone and as part of a team.

## ASPIRATIONS

- I have always been passionate and enjoyed web design.
- After a fulfilling career in Commercial Diving I am more than ready to be part of a creative team and fulfill my passion of being a web developer.
- I am extremely keen and ready to learn from others and be part of a company where I can grow and further develop my skills.

## EDUCATION

### **SERC Bangor** **2008-2011**

Edexcel Level 3 BTEC National Diploma for ICT Practitioners  
Edexcel Level 2 BTEC First Diploma for ICT Practitioners

**2011**  
**2009**

### **Rudolf Steiner School, Hollywood** **2002-2008**

GCSEs obtained

**2008**

## WORK EXPERIENCE

### **Self Employed, Commercial Diver** **2012-Present**

- Maintain personal and company equipment
- Communication with both client and close team colleagues.
- React quickly to solve problems and ensure challenges are met with calmness and rational thinking.
- Supervise and conduct hull inspections, damage analysis and civil engineering operations repair and maintenance.
- Prioritising personal and team safety above all else by carrying out constant risk assessments.

### **Self Employed, Freelance Web Developer** **2020**

- Using Gatsby and SCSS I created a Massage website that needed to a relaxed feel around it and clearly showed the treatments provided.
- I learnt a lot about the entire process from initial meeting to finished product and everything in between.
- I had a professional client-based relationship where I had to listen to the client's feedback, fix issues, add new features and general maintenance.
